## COASTAL CHIC

QT Bondi is a place where things collide. Chance encounters. Sliding doors. The shoreline sculpts the wave.

We built a hotel where the Pacific meets the continent, right in the heart of Australia's coolest spot.

At QT Bondi, chic meets mellow, art meets fashion, gin meets tonic and travellers, entrepreneurs and locals meet to make the world their canvas.

The QT Bondi team share the restaurants and bars to explore, and know just where to go to run up against something unexpected.

## DESIGN

Cool calm and eclectic, QT Bondi has been designed with a clean getaway feel in mind. Nic Graham, the design mastermind behind the hotel, has created the ultimate beachside retreat whilst capturing the essence of Bondi.

Bespoke detailing and designer furnishings provide dramatically fresh yet elegant interiors with all the QT signature quirk. Focusing on creating an individualised home-away-from-home, the light-filled rooms create a mood of tranquillity and beachside bliss.

Using a palette of pastels and pops of colour, furnishings and décor depict an all-round summer beach vibe. The lightness and curvature of the timber somewhat resemble and represent the motion of a wave.
